

ORION DADO LASER WELDER

A compact laser with benefits you expect. Only from Sunstone!

SPECIFICATIONS

Laser source	ND: YAG 1064 NM
Impulse time	0.1 ÷ 6 ms
Spot diameter	0.2 ÷ 1.5 mm
External control	Mobile App
Input power	110/230 VAC, 50/60 hz
Energy Range	1-15 J
Average power	180 W
Max power	2.5 KW
Ampere	T16A
Welds/Second	1-4
Dimensions	13.5 X 13.5 X 13.5in
Weight	33 lb
Cooling	Liquid
Microscope	10X
Working environment	62-95°F UR 65% non-condensing
Noise level	< 70 Db (A)
Argon Compatible	YES

FEATURES

WELDING WITH ARGON

The DADO can be purchased with the ability to utilize argon gas. This upgrade helps eliminate oxidization & improve strength.

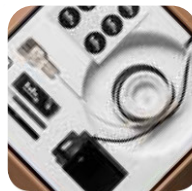

VOCAL ASSISTANT

Let the DADO talk to you. If an error occurs while you are using the DADO, the voice assistant will speak the error to you.

LED STATUS INDICATOR

The LEDs inside the welding chamber will change color as you change the parameters. Colors indicate power levels.

ACCESSORIES INCLUDED

A complete system should be complete. That's why the DADO comes equipped with all the accessories you need.

MOBILE INTERFACE

The mobile app for the DADO is easy to use and intuitive. Manage all the DADO parameters and its status right from your screen.

EASY SETUP

The DADO is quick to setup and begin welding. Remove the DADO from the box, add water, download app, weld!
